NKGSA- REPORT TO THE ADVISORY COMMITTEE

TO: Chair and Advisory Committee Members

FROM: Kassy D. Chauhan

DATE: August 18, 2022

SUBJECT: Recommend Approval of the Update Project List Dated August 2022

ATTACHMENTS: A: Table 6-1: NKGSA Current Project List – Dated August 2022

CONFLICT OF INTEREST

None

RECOMMENDATION

For the Advisory Committee to recommend to the NKGSA Board of Directors approval of the updated NKGSA GSP Project List – August 2022.

EXECUTIVE SUMMARY

In 2021, the NKGSA agreed to do an annual solicitation for projects to be included in the NKGSA project list, Table 6-1 of the NKGSA GSP. In June 2022, the NKGSA solicited new projects to be added to the GSP. Since the last update to the project list in June 2021, a total of five (5) new project forms were submitted. Two of the submittals came from Fresno Metropolitan Flood Control District (FMFCD) to intertie Basins CE and SS, and three project submittal forms were submitted by Bakman Water Company for potential new groundwater recharge basin sites.

An updated projects list has been prepared (Attachment A) and includes a status update of projects that have been completed and the new projects from Bakman Water Company recommended for addition to the list. The detailed project forms for the new projects are

available upon request. Additional details on the basin intertie projects is needed before additional action on those projects is taken. If approved, the updated project list will be noted in the next annual report, and the current list maintained on the NKGSA's website. The three project forms submitted by Bakman Water Company are recommended to be included in the GSP as shown on the table. Additionally, the table reflects updates for existing projects on the list.

FISCAL IMPACT

There is no fiscal impact given the projects will be completed by the entities within the NKGSA boundary.

REASON FOR RECOMMENDATION

Each of the entities within the NKGSA boundary has agreed to mitigate for the groundwater impacts within their boundaries. As such, projects will be completed by the entities and having an active project list is important to demonstrate actions being taken to reach the sustainability goals for the NKGSA. The current project list in the GSP (Table 6-1) was most recently updated in June 2021 following the annual solicitation in 2021.

ACTIONS FOLLOWING APPROVAL

The updated project list dated August 2022 will be provided to the NKGSA Board of Directors for approval at its regular board meeting on August 25, 2022. If approved by the Board of Directors, the project list will be posted on the NKGSA website and annual project solicitations will occur during the beginning of each calendar year.
