Written and Verbal Comments

Members of the public are encouraged to participate in the Board Meeting and will have an opportunity to provide public comments during the meeting under Agenda Item No. 5 and following each agenda item discussion. No prior arrangements are required to be able to make public comment but comments are limited to three (3) minutes.

Written Comments can also be provided up to one hour prior to the scheduled meeting. Written comments received in advance of the meeting will be read onto the record during the public comment portion when the item is heard. Any portion of your comment extending past three (3) minutes may not be read aloud due to time restrictions but will be made part of the record of proceedings.

7. Administrative Matters
   a. Discussion/Possible Action – Consider Adoption of the NKGSA GSP Including Revisions Related to Interconnected Streams

GSP Revisions

- Board of Directors Approved Readoption of the NKGSA GSP with Revisions to Address DWR noted deficiencies at its June 23rd meeting.
- Additional Information from DWR Received – July 7th
- More Revisions Needed
  - Interconnected Surface Water – Initial Approach
    - Identified as data gap, particularly extent of area of potential impact
    - Reference and coordinate with SJR Restoration and King Fisheries Program

GSP Revisions

- More Revisions Needed
  - Interconnected Surface Water – Revised Approach
    - Must set SMCs for Interconnected Streams Per DWR
    - Use Groundwater Levels as a Proxy for Interim SMCs for surface water-groundwater interconnection.
    - Proceed with study previously identified in GSP to gather additional data to replace the interim SMCs.

- More Revisions Needed
  - Interconnected Surface Water – Revised Approach

Data Gap Analysis
Overall, additional information is needed to better define the status of surface water-groundwater connection and the extent of surface water depletions, if any, in the GSA. As a result, the GSA has identified these as data gaps that must be researched before refined sustainable management criteria (SMC) can be developed to replace Interim SMCs. Chapter 6 includes the description of a project called "Interconnected Surface Water-Groundwater Data Gap Analysis." This is a high priority project that will include the following primary tasks:

  - New Section – Interim SMCs
    - Insert Attachment A
  - MAP and Table with Proxy Wells

GSP Revisions

- MAP and Table with Proxy Wells
  - 4 San Joaquin River
  - 1 Kings River
