   c. Discussion on the Kings Basin Periodic Evaluation

What is Periodic Evaluation

- Required submittal to DWR every 5 years - First Periodic Evaluation for Kings is due 1/31/25
- Periodic Evaluation is not an Update to the GSP
  - But any revisions to the GSP should be mentioned in the Periodic Evaluation
  - Periodic Evaluation is a separate document that is intended to be "GSA's honest and detailed interpretation of how implementation is taking place".. listing successes and challenges, and how the GSA's plan to overcome those challenges.
- DWR has provided a template format to follow
- DWR will review Periodic Evaluation, and determine if basin will stay "Approved" or be deemed "Incomplete" or Inadequate"
- Regulations list that DWR will review:
  1. If any minimum threshold exceedances or failure to meet interim milestones and likelihood to reach sustainability
  2. Whether projects and management actions are being implemented
  3. Whether or not data gaps are being addressed and level of uncertainty being reduced
  4. Were submittals made on time, and is GSP still complete, coordinated, addresses corrective actions
